

President Message

Overview and history of Yu-cho Foundation

I will greatly appreciate your further guidance and encouragement.
Yu-cho foundation has changed to general incorporated foundation on April 1, 2012.

Yu-cho Foundation is the organization which aims at promoting public welfare by conducting the study research and providing the research grants in the area of personal savings including the improvement and promotion of postal service toward the post office customers.

Yu-cho Foundation has been conducting study research business since 1969 as Postal Savings Promotion Society, with the focus on management of Mielparque's accommodation and banquet service (Mielparque is the hotel business managed by the organization). The organization, which was renamed in 2007 to Yu-cho Foundation, has experienced the merger of both the Research Institute for postal savings fund and the Postal savings for International voluntary aid promotion association in 2006 as well as the Postal service center in 2008, in the year which Yu-cho Foundation ended the management of Mielparque.

Yu-cho Foundation has applied to Cabinet Office for the approval to change the legal status to general incorporated foundation status in order to correspond appropriately to the new institutional reform of Public Interest Corporation.

Under the new "general incorporated foundation" status, Yu-cho Foundation hopes to continue providing various researches throughout the postal service areas and continue to conduct various businesses in order to enhance financial products and services which are essential to people's lives from the consumer oriented perspective and contribute to creation of solid foundation of people's lives enrichment.

April 2012
President of Yu-cho Foundation
Joji Asahi
